FOREWORD

A Retail Sales and Use Tax Report is published for each of the four quarters ending March 31, June 30, September 30, and December 31, and one for the annual period covering sales made between April 1 of one year and March 31 of the following year.

The report utilizes the 1972 Standard Industrial Classification (S.I.C.) codes which classifies businesses according to their major business activity and is used for two presentations of sales tax data and for presentations of retailers use and consumers use tax data. Data in these presentations may be compared to other reports published since June, 1975; however, for prior periods, comparability of the data is limited.

The sales tax section of the report now consists of three presentations. The first subsection, the County and Town presentation, provides data for all towns in Iowa regardless of size for which the minimum number of returns were filed during the reported period. The Non-Permit category presents data for retailers not regularly engaged in selling at retail. The "other" category includes all rural filers and information for towns which did not satisfy the minimum requirement of 10 returns for a quarter or 40 returns for a year.

The second major sales tax presentation provides the number of businesses and computed tax by business group for each county and for selected cities. Breakdowns are provided for all cities over 2,500 population according to the 1980 federal census, for which 40 or more sales tax returns for a quarter or 160 or more returns for a year were received. Data for rural areas and towns not presented separately is provided in the Other column. The third presentation of sales tax data provides a breakdown of state sales tax according to the twelve business groups and over 90 business classes. In order to protect the confidentiality of the data, information for any business group with less than 5 returns for a quarter (20 returns for the annual report) is consolidated in the Miscellaneous group.

The use tax section, presents data for the three use taxes: Motor Vehicle Use, Retailers Use and Consumers Use. Motor Vehicle Use tax data is presented according to the county in which the vehicle is registered. Retailers Use tax data is presented by business group and class. Presentations are made of Consumer Use tax data by both county and business group.

The introductory section of this report continues with a list of relevant terms and their definitions. An account of the development of both the sales and use tax laws and a summary of the data for the period according to tax follows the Glossary. Included in this summary is a comparison of the current period to the same period last year and breakdowns by business group, population group, size of gross receipts and size of computed tax. The introductory section concludes with a section on the local option Hotel/Motel Tax in which a summary of the law and the tax collected is given.

DEVELOPMENT OF RETAIL SALES TAX

Effective March 1, 1983, a four percent tax is imposed on the gross receipts received from the retail sales of tangible personal property in Iowa and from receipts received for the performance of certain taxable services in this state. The amount of gross receipts is adjusted by the inclusion of the value of goods consumed which were purchased tax exempt less the deduction of any exempt sales.

The sales tax was first imposed in 1934 in Iowa for a three year period at the rate of two percent. As adopted, the tax was imposed only on the gross receipts received from: the sale of tangible personal property; the sale of gas, electricity, water, and communication services; and, the sales of admissions to places of amusement or athletic events.

Since 1934, the tax base has been revised to include gross receipts from: the sales of all forms of amusement devices and commercial amusement enterprises effective April 24, 1947; the renting of rooms by the same person, unless rented for a period of thirty-one or more consecutive days effective as of July 1, 1965; the performance of certain enumerated services as of October 1, 1967; the sale of newsprint and ink used in the printing of any newspapers as of January 1, 1970; and, the sales resulting from gambling, games of skill and raffles as of June 2, 1973. As of July 1, 1981, the sales tax was applied to the total purchase price of optional service or warranty contracts which provide for repair parts or labor.

Included in the exemptions which have been provided are: the sale of tangible personal property to be used as railroad rolling stock effective in 1971; the exemption in 1971 of the sale of used motor vehicles subject to registration; and the exemption of food, prescription drugs, and medical devices effective July 1, 1974. The First Session of the 66th General Assembly in 1975 extended the food and drug exemption to apply to sales of medically prescribed oxygen. In 1979 sales by cities and counties, except utility service, were exempted. Further information on allowable deductions is provided in the glossary on page II.

Sales tax rates have been adjusted several times since the enactment of the tax. The original rate of two percent was in effect from the date of enactment until June 30, 1955. Between July 1, 1955, and June 30, 1957, the tax rate was increased to two and one-half percent. The tax rate was again set at two percent effective July 1, 1957, and remained in effect until the enactment of three percent effective October 1, 1967. The three percent rate remained in effect until March 1, 1983, when the rate became four percent.

The Retail Sales Tax section continues on pages IV - X with a review of data for the period including breakdowns of data by county, population group, business group, amounts of computed tax and a comparison of the present period to the same period last year.

THE YEAR IN REVIEW
Retail Sales Tax

Total taxes due on returns filed for the year ending March 31, 1985 amounted to $581.5 million which is a 2.60 percent increase from the $566.8 million collected in 1984. This number is not directly comparable due to the exclusion of late filers in the last quarter of FY 1984. The number of quarterly returns filed increased to 382,236 in 1985 from 372,297 in 1984 which is a 2.67 percentage increase. This increase is partly due to the exclusion of late filers in the last quarter of fiscal year 1984. This data reveals a decrease in the average amount of computed tax reported per return.

Review of Quarterly Returns in 1985

Reflecting Christmas retail sales activity, 27.34 percent of fiscal 1985 computed tax was reported during the December quarter, to make this quarter the largest in terms of computed tax. Figures A & B on page VI present in detail the quarterly taxable sales and tax liabilities during fiscal 1985 and for each of the past two fiscal years.

Size of Gross Receipts in 1985

Examination of the table "Gross Sales and Computed Tax By Size of Gross Sales for Fiscal 1985" on page VII provides a profile of tax liability according to the gross sales of Iowa firms. Businesses which had $1 million in quarterly gross sales collected 44.78 percent of total sales tax in 1985 while comprising only 1.43 percent of total businesses filing returns. In contrast those firms with gross sales of under $10,000 represented 58.00 percent of total business but their tax collections represented only 2.65 percent of total collection.

Sales Tax Due by County in 1985

To facilitate the comparison of an individual county's sales tax collections to surrounding counties or trade areas, a table of Iowa's ninety-nine counties is shown on pages IX and X of this report.

DEVELOPMENT OF USE TAX

Effective March 1, 1983, Iowa imposes a use tax at the rate of four percent on the purchase price of tangible personal property which is purchased for use in Iowa. The tax is also imposed on individuals using those services subject to the sales tax when such services or the result of such services are used in Iowa.

A use tax was first imposed in Iowa in 1937 in conjunction with the permanent adoption of the sales tax. Since its adoption, the development of the use tax has generally paralleled that of the sales tax both in terms of tax base and rates. Credits are provided, however, against the amount of use tax due in Iowa for any sales, use or occupational taxes paid to another state.

As presented on page XII, the Iowa use tax is collected under three complimentary use taxes; Retailers Use, Consumers Use, and Motor Vehicle Use. The Retailers Use tax is collected by registered retailers from the purchaser on the sale of all tangible property and taxable services. Retailers located outside of the state who maintain a place of business in Iowa are required to register with the Department and collect the tax on all sales made into Iowa.

Use tax liability which is not paid through a retailer remains the responsibility of the consumer. Purchasers of property on which the tax has not been paid are required to file a quarterly Consumers Use tax return in conjunction with payment of the tax.

A four percent excise tax is also imposed on the sale of new and used motor vehicles which are subject to registration. The tax is imposed on the taxable price which is the delivered price less cash discounts and the value of any property traded. Payment of the tax is made to either the county treasurer where the vehicle is registered or the Motor Vehicle Division of the Iowa Department of Transportation. Credits are also provided for sales or use taxes paid on motor vehicles to other states.

Pages XII - XIII present a review of Retailers Use Tax data by business group and by size of computed tax and a comparison of use tax data for the current period compared to the same period last year.

LOCAL OPTION HOTEL/MOTEL TAX
Fiscal Year Ending March 31, 1985

During fiscal 1985, the local option hotel/motel tax was imposed in twenty-two cities and in one county in Iowa. The tax is instituted, by voter approval, by the local jurisdictions and is collected and processed by the Department of Revenue in conjunction with the retail sales tax. While the tax rate may not exceed a rate of 7 percent, nineteen of the jurisdictions have elected to impose a 5 percent rate, two impose a 4 percent rate, and two impose a 3 percent rate.

The tax is imposed upon the gross receipts from the renting of sleeping rooms, apartments, or sleeping quarters in any hotel, motel, inn, public lodging house, rooming house, tourist court, or in any place where sleeping accommodations are furnished to transient guests. The rooms must be rented for less than 31 consecutive days and be located in the city or county which has authorized the tax. When the tax is imposed by a city, it applies only within the corporate boundaries of that city. When the tax is imposed by a county, it applies only outside the incorporated areas within that county.

The tax collected is certified by the State Treasurer who remits the tax to the local governments imposing the tax. For the year ending March 31, 1985, a total of $4,868,557.64 was certified collected from the following jurisdictions.

---

[1] The increase in tax collected by food dealers may be mostly attributed to the change in the sales tax base which provided for the taxation of candy, soft drinks and prepared foods effective July 1, 1985. These items were previously exempt from sales tax.

[2] The increase in tax collected by the Services Group may be partially attributed to the enhanced list of enumerated services which were made subject to the sales tax effective July 1, 1985. These additional services include cable television, campgrounds, gun and camera repair; building maintenance; lawn care; landscaping and tree trimming and removal; and several additional items.

1. The increase in tax collected by food dealers may be mostly attributed to the change in the sales tax base which provided for the taxation of candy, soft drinks and prepared foods effective July 1, 1985. These items were previously exempt from sales tax.
2. The increase in tax collected by the Services Group may be partially attributed to the enhanced list of enumerated services which were made subject to the sales tax effective July 1, 1985. These additional services include cable television, campgrounds, gun and camera repair; building maintenance; lawn care; landscaping and tree trimming and removal; and several additional items.
